

List of Winners for 2017

Congratulations to all the schools and the 23,102 young people who took part in the Better Energy School Awards 2017. With so many entrants and so much great environmental work on show, we had some really tough decisions to make when it came to choosing who should receive a prize. But after a lot of deliberation, we selected the list of schools below as our winners.

Regional Champions will receive £1,000. One of the Regional Champions will be named the UK Champions at an Award Ceremony later this month and will see their prize increased to an amazing £5,000.

Regional Winners receive £500 for the school funds, while Highly Commended schools receive £250. There are also 20 Special Award winning schools, which will receive £100 each. EVERY school that took part in the Awards will receive a certificate to commemorate their achievements.

North of England	School name	From	Project name
